AMPD GAME HOSTING

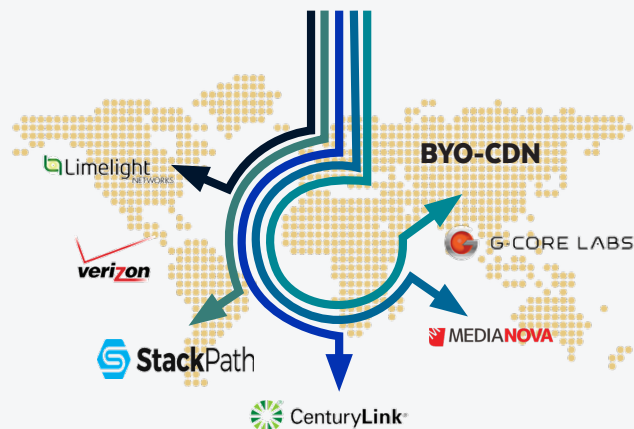

AMPD's Game Hosting blends dedicated core infrastructure with the flexibility to work with any public cloud - including our own - for higher performance and better pricing than other cloud providers. Any company with a multiplayer game at scale should talk to AMPD. Top five reasons to select AMPD:

1. World-class bare-metal infrastructure
2. Private and public high-performance cloud services
3. Sub-40ms roundtrip ping time to all USA POPs
4. Network neutral access (150+ carriers)
5. Direct trunk to Asia and Europe

AMPD MULTI-CDN

POWERED BY SYSTEM73

With 12 Tier-1 CDNs and overlapping coverage of the globe, AMPD's Multi-CDN, powered by System 73's KUNO FLOW, reaches your users with more available throughput than any single CDN provider in the world. KUNO FLOW, accelerated with PolyNet technology, offers the benefits of Multi-CDN Connectivity at rates comparable with those of single CDN solutions.
